

Product Line Sheet

Process Instrumentation, Controls and Mechanical Equipment

Flow Products

MagnaProve® Small Volume Prover, Retrofits
Uni/Bidirectional Provers, Spheres
Detector Switches
Load Arms and Swivels

Glass & Metal Tube- Variable Area Flowmeters
Rotameters

Ultrasonic Clamp on Meters
Non-invasive flow measurement

Smith PD, Turbine Meters, Valves
Coriolis Meters
Ultrasonic Meters

Invalco
BS&W
Terminal Automation

Thermal Mass Flow Meters for GAS
In-Situ Calibration Check

Mag Meters
Coriolis

Ultrasonic Meters
Vortex Meters

Digital Turbine Meters

Positive Displacement Meters

Thermal Differential Flow Switches

Flow & Level Computers
Indicators, Counters, and Timers

Piston and Rotary Positive Displacement Flow Meters

Custom-designed blending and additive metering systems for use in the petroleum and petrochemical industries.

Coriolis meters designed for high pressure & highly corrosive applications.

Level Products

Process Level Controls
Float, Capacitance, Ultrasonic

Radar Level Controls
Liquid Level Gauges and Indicators

Liquid Level Switches

Process Controls	
	PLC Interface-Touch Screens, HMI Software, OPC/DDE Drivers
	Programmable Automation Controllers, I/O Modules, Solid State Relays
Pressure and Temperature Instruments	
	Pressure Transmitters, Gauges, Thermometers
	Custom Manufactured Temperature Sensors
Analytical Instruments	
	BS&W Monitors
	Automated Sampler Systems Pipeline Haze Analyzers RF3 Rapid Flash Systems <div>Fast Loop Systems Recovery / Reinjection Systems</div>
	Sanitary and Process Lights, Sight Glass, Sight Flow Indicators
	Dewpoint meters Hygrometers Moisture Analyzers
	Moisture and Oxygen Measurement in Gases
	Inline Process Viscosity and Temperature
Fire & Gas Detection and Safety Systems	
	Allestec Corp, Safety Controls, Fire & Gas Annunciator Panels
	Hazardous & Toxic Gas Monitors Infrared Catalytic
	Optical Flame Detectors UV, UV/IR Multiple Spectrum
Valves & Piping Components	
	SVF – V-Ball, Dribble Control
	Cash Valve Regulating, Pressure Reducing, Back Pressure, Cryogenic

	O Seal Valves and fittings	
	Ball Valves Actuators	
	Butterfly and Check Valves Strainers	
	2-Way and Multi-Port Valve design	
	Knife Gate and Butterfly Valves	
	Ball Joints and Expansion Joints	
	Steam Traps	
	Metal, PTFE, and plastic expansion joints for corrosive and extreme temperature service.	
Pumps		
	Centrifugal Pumps High Temp, Hot Oil, ANSI, API Sethco / Fybroc	
	Centrifugal clear liquid, solids handling, and grit/slurry pumps	
	Horizontal Pumping Systems, Sucker Rod Pumps, ANSI Pumps, Electric Submersible Variable Frequency Drives, HVAF Coatings, Electric Submersible Pump Cable	
	Regenerative Turbine Pumps Sealless Canned Motor Pumps	
	AOD Pumps Piston Pumps	Metering Pumps Centrifugal Pumps
Process Heaters		
	Direct Fired HMO Heaters, Indirect Water Bath, Electric Heaters, Hot Oil Pump Skid, Expansion Tanks, Pressure Vessels, Plant Skid and Piping Systems, Pressure Reduction Skid, Combustion Management System, Fuel Trains, and Thermal Oxidizers	
Filtration		
	The world's leading supplier of filtration and exhaust systems	

A complete line of liquid filters, strainers, coalescers, separators

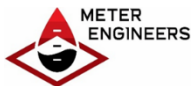

VAF™ filtration systems
an EPCOSQUA brand

Automatic Strainers and Filtration Systems/Skids
Hydrocyclone Separators, and Standard Bag Filtration

Loading & Delivery Systems

AccuLoad and microLoad presets
Terminal Automation Systems
Flow Computers

Load Arms
Load Assist Technology
Swivel Joints

Loading equipment for the transfer of liquids
Loading and Unloading Arms

Gangways
Platforms
Fall Protection

Service

Start-up and Support Services

Allesco offers full turnkey project-based support including design drawings, project management, start-up and commissioning of metering skids, loading racks and other engineered packages.

Some products not represented in all locations
